DESIGN MADE REAL

Matisse

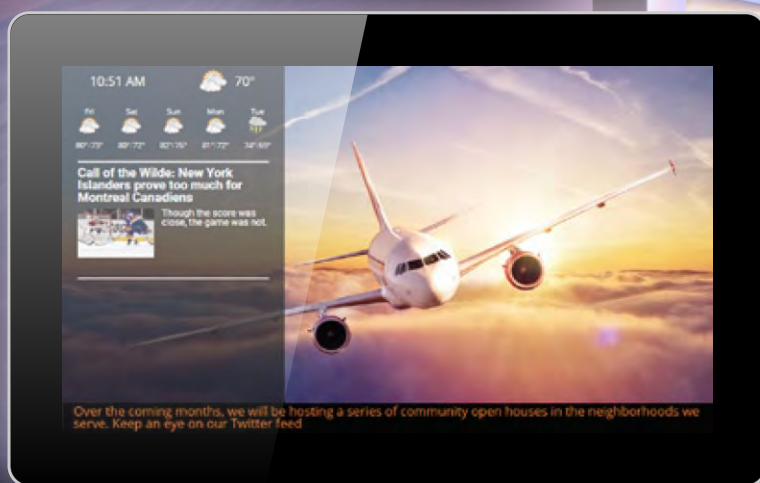

Let the Show Begin !

With its amazing graphics, cloud-based connectivity, audio and video features, the Matisse multimedia display breaks through the limits of conventional car position indicators by offering the ultimate digital signage experience in your lift.

The most advanced system

for multimedia displays
and digital signage
applications

Matisse multimedia displays come today as a complete multimedia platform featuring large, high-resolution screens and MosaicOne cloud-based content management software. Connect your Matisse to the Internet, using either your existing LAN or DMG's 4G Router, and start creating all types of content to be published on screens in minutes.

The screenshot displays a multimedia interface with the following sections:

- Live Traffic:** A map of Munich showing traffic conditions with red and yellow indicators.
- Weather:** A blue header for Munich showing 12 °C and a forecast for tomorrow of 8° | 15° with a sun and cloud icon.
- News:** A grid of news items with small images and headlines, including "Merkel's coalition talks will delay Brexit deal for months", "Pulice ask staff if Heath smuggled boys into No 10", "The rapper who wants to prove the Earth is flat once and for all", "Tournament runner-up scoops 'weird' \$10m bonus", "Labour's antisemites 'must be expelled'", "Watchdog investigates price comparison website", "Is cheese healthy?", "How German far-right won third place in 4 graphics", "Targeted treatment 'cures' prostate cancer that kills thousands", "Uber appeal will keep cars on road for a year", "Andrei Lankov: Should S Korea have a nuclear weapon of its own?", "Scott Jennings: Trump knows that US agrees with him on NFL controversy", and "David Sterman and Peter Bergen: Trump's new travel".
- Video:** A red icon representing video content.
- Website:** A blue icon representing website content.

The cloud-based management

The easy-to-use MosaicONE software enables you to create powerful digital notices using any type of content. With the choice of using either pre-designed templates, or creating custom designs, you will be running in no time. Manage all your devices from one browser login, or delegate responsibility to other users.

GRAPHICS THEMES

Matisse display features 8 built-in standard graphic themes, available for all screen sizes.

With MosaicOne, you can either use a standard theme to create your custom graphics or create a new one from scratch.

Need help with themes?

Ask our designers to create a custom theme for you. Our team is happy to help customize your project and get you running in no time.

TECHNICAL HIGHLIGHTS

POWER SUPPLY

12÷24V dc

HARDWARE

CPU: Dual core 1000 MHz with accelerated graphic

RAM: 1 Gbyte DDR3

STORAGE: 300 Mbyte internal + SD card

ON BOARD CONNECTIVITY

Ethernet / 1 USB / 1 HDMI

AUDIO

1W on 8 Ohm output speaker

POSITION INDICATOR INPUTS

Serial / Multiparallel / CAN BUS / Pitagora pre-wiring

SERVICE MESSAGES INPUTS

S1/S2/S3/S4/S5/Trigger

12÷24V dc optoisolated

OPERATING TEMPERATURE

-10°C ÷ +50°C
